

We are informed by a passenger who arrived here yesterday on board the steam tow-boat Southerner, from the Passes, that on the 25th instant, eight negroes stole the pilot boat Lafayette, and put to sea. It is supposed that they will endeavor to make their way to some of the British West India Islands. Seven of the negroes belong to the pilots at the Barle, and one of them to Mr. William Ells. We have no further particulars.

RELICS OF FEARFUL TIMES.—A party of persons from Glen's Falls, N. Y., engaged in repairing the Lake George Road, near "Whale Rock," last Monday, discovered, large quantities of human bones. They were found about eighteen inches under the surface of the ground. Among the bones four skulls were found, each of which bore the marks of the Indian's tomahawk. They are doubtless, the bones of the victims of the Indians under Montesum, at the massacre which succeeded the surrender of Fort William Henry.

PARIS.—The Municipal Council of the Seine consented to devote its attention to the embellishment of the Capital. Among many other projects now under discussion, one for the construction of an immense workshop for poor young women, in the district of Saint Lazare. In this large establishment every young woman without work will be received, lodged, fed, protected in reputation, and will be paid some slight remuneration in the shape of wages. They say that this workshop will be constructed sufficiently large to lodge at least twenty thousand women.

SHOCKING DEATH.—Mr. Ebenezer Adams, a highly respectable citizen of New-York, aged 35 years, who had been spending a few weeks at Milton, in this country, lost his life at the latter place by swallowing corrosive sublimate, on the 29th ult. He took the poison in his hand, and being jestingly told that it contained ricer, before he could be prevented, swallowed enough to cause death.

SHIPWRECK.—The ship, Danube, of Frankfort, Mo. Capt. Rich, went ashore on Boddy's Island, with a cargo of sugar and molasses, on the night of the 14th inst. The crew saved themselves, but the vessel will probably be a total loss.

THE prospect for a fine crop of wheat in Kentucky was, until a few days since, highly flattering. The late heavy rains and the hot weather have been of immense injury to it in this section, almost insuring extensive ravages of rest.
